

**Are you looking to build
your tech talent pipeline?**

**Get started with
TECH QUEST
APPRENTICESHIP.**

Apprenticeships are no longer limited to the trades. Today, apprenticeships are being used across high-demand fields including healthcare, advanced manufacturing, biotechnology, and information technology.

Tech Quest Apprenticeship is a national consortium of businesses, higher education institutions, and local workforce development boards transforming the way Americans gain IT and IT-related skills to enter the workforce through apprenticeships.

Do you have unfilled IT and IT-related positions?

Would you benefit from a talent pipeline that trains to the skills that you need?

Would you like to improve retention & employee engagement?

Do you have employees that need additional skills?

Would you like a more diverse workforce?

Tech Quest Apprenticeship is helping businesses in communities across the country, from a variety of industry sectors, expand their workforce in high-demand, hard-to-fill tech-related positions.

Consider these benefits of apprenticeship:

- Develop a skilled workforce
- Access vetted, ready-to-work talent
- Increased productivity and return on invested training dollars
- Standardized related instruction paired with on-the-job training
- Structured wage progression based on clearly defined competency milestones
- Potential for tax credits and reimbursement of eligible apprentice wages
